

The deposition of Thoms putnam aged 40 years and Jno.
 putnam aged 36 years who testify and faith that we having been
 conversant with divers of the affected persons as many will not
 merry leave Ehs: Hubbard Abigail Wilans and Ann putnam and we
 have seen them most dreadfully tormented and complaining of old pains
 for hurting them but on 15th May 1692 being the day of the examination
 of George Jacobs sent the afore said persons most wise most dreadfully
 tormented during the time of his examination as if indeed their bones
 would have been disjointed: being in such misery as we could hardly
 hold them and wee believe that George Jacobs the viziter at the times
 as very often afflicted and tormented the afore said persons by
 acts of witchcraft

Thoms putnam
